

**The Magid School of Psychotherapy established
by the Hebrew University, Jerusalem
in Cooperation with
The Israel Center for Mentalizing
And
National Education Alliance for
Borderline Personality Disorder
Are pleased to invite you to
The First international Conference on:**

WHAT WORKS FOR BORDERLINE PERSONALITY DISORDER?

The recent decade has brought with it unique developments in research and treatment of people suffering from borderline personality disorder, resulting in a wide range of new therapeutic interventions and more efficient treatments.

The conference includes meetings with five of the world's leading therapists specializing in various models of borderline personality disorder treatment: dialectical behavior therapy, mentalization-based treatment, and transference-focused therapy. The event provides an opportunity to hear the personal experiences of field specialists in their clinical work, their insights into the means to improve efficiency of treatment, and to discuss with them the commonalities and differences between each method.

**The Conference will be held in the
Arison Auditorium, 7 Saadia Gaon Street, Tel Aviv, Israel
on Friday, February 7, 2014 and Sunday, February 9, 2014**

Academic organizing committee: Dr. Perry Hoffman, Dr. ilan Diamant, Mr. Yoav Broshi, Dr. Eynat Aspler-Rosenborn
Early registration: expert intern student
Regular full price
